Virtual care	Convenience care clinic	Health care provider's office	Urgent care center	Emergency room
For minor medical conditions. Connect with a board-certified doctor via video or phone when, where and how it works best for you. Visit myCigna.com , or call MDLIVE at 888.726.3171 to talk with a doctor 24/7.*	For minor medical concerns. Staffed by nurse practitioners and physician assistants. Located in retail stores and pharmacies. Often open nights and weekends.	The best place to go for routine or preventive care or to keep track of medications. Many PCPs offer virtual care. Contact your PCP to schedule an in-person or virtual care visit. Find a PCP on myCigna.com .	For conditions that aren't life threatening. Staffed by nurses and doctors and usually have extended hours.	For immediate treatment of critical injuries or illness. Open 24/7. If a situation seems life threatening, call 911 or go to the nearest ER. "Freestanding" ER locations are becoming more common in many areas. Because these ERs are not inside hospitals, they may look like urgent care centers. When you receive care at an ER, you're billed at a much higher cost than at other health care facilities.
